

The GOLDEN Touch

Here are the latest Gold Award winners from two recent shows: KBIS and Meble Polska.

Inspired by traditional clay ovens, **Thompson's** Permanente tub features soft curves in a beautiful aged bronze finish. Shown at KBIS, it's also more accessible, due to its shorter, 16-inch-high walls.

At KBIS, the **Goldfusion** walk-in refrigerator brings an elevated version of the ubiquitous cold storage found in restaurants to the residential market. Its features include a patented air wall system and hinges.

First-time KBIS exhibitor **Cubic Outdoor Living** showcased its Kitchen in a Cupboard, a high end waterproof storage box for the outdoors.

Middleby Residential's Viking brand relaunched its designer color palette of 20 finishes, including Splash and Ivy here, at KBIS. The company worked with Sherwin-Williams on the palette, which includes 17 new colors to the line.

At Meble Polska, **Wajnert's** Tiny sofa has hidden storage, transforms into a bed and has two different sizes of tables that can be inserted into the sofa.

At KBIS, **Freepower's** integrated charging system allows users to charge their electronic devices right on the countertop. They can change the color of the light, or even set it to turn on with the wave of a hand.
